

Sharan Shyamsundar

Founding AI Engineer · Germany · de.sharan17@gmail.com · linkedin.com/in/sharans-1712 · github.com/Sharan1712 · sharanshyamsundar.com

I build AI agents that do real work: procurement at qado now, finance at Quid before. Most of my career has been in early teams, taking AI from prototype to production.

EXPERIENCE

Apr 2026 – now	Founding AI Engineer, qado Founding team. AI agents for enterprise procurement that help buyers keep the savings they negotiate; work across the product, the platform and internal AI tooling.
Apr 2025 – Mar 2026	AI Engineer, Quid Joined early. Took LLM prototypes to production multi-agent systems for finance teams, plus the full stack around them.
Feb 2023 – Jan 2025	Working Student, BASF Supply Chain Digitalisation team. Built Eddy, a RAG helpdesk for internal questions; supply chain dashboards.
Sep 2020 – Jan 2023	Quant Analyst & Consultant, Equity Data Science Joined the quant team early. ESG analytics products and automated investment workflows for institutional clients.
2020	Management Trainee, Machine Learning, IT Mines Technology First machine-learning role in industry.
2019	Data Scientist Intern, Saatchi & Saatchi · Publicis Media

EDUCATION

2022 – 2024	MSc Data Science, University of Mannheim Thesis: parameter-efficient fine-tuning of quantised LLMs.
2017 – 2020	BSc Applied Statistics & Analytics, NMIMS

SKILLS

Code: Python, TypeScript, SQL

AI: multi-agent systems, RAG, LLM evaluation, MCP, fine-tuning (LoRA / PEFT); Agno, LangGraph, CrewAI

Engineering: FastAPI, Next.js, React; AWS, GCP, Azure, Docker

RECOGNITION

- Aug 2026 · Winner, AWS Challenge, JiVS Hackathon
- Aug 2025 · Topic winner, JiVS Hackathon
- Jan 2025 · 2nd overall + topic winner, JiVS AI Hackathon at WEF Davos (project: ZENIX, plain language to SQL and XML)
- Aug 2024 · Topic winner, JiVS Hackathon
- 2023 · Team winner, STADS Datathon, Mannheim

All team wins; JiVS hackathons with team Strike.
